REVOLUTION
One day we must ask the question, 'Why are there forty million poor people in America?' And when you begin to ask that question, you are raising questions about the economic system, about a broader distribution of wealth. When you ask that question, you begin to question the capitalistic economy...You begin to ask the question, 'Why is it that people have to pay water bills in a world that is two thirds water?' - Martin Luther King Jr. "Where Do We Go From Here: Chaos or Community?" (1967)
